# Alpine Space Programme

European Territorial Cooperation 2007 - 2013

## PROGRAMME IMPLEMENTATION HANDBOOK

### → Participating countries

- Austria
- France
- Germany
- Italy
- Liechtenstein
- Slovenia
- Switzerland

The programme is co-funded  
by the European Regional  
Development Fund

# Introduction

Dear Reader,

This "Programme Implementation Handbook" has been made to provide the (potential) project partners with all the information needed to develop, implement and close a project within the Alpine Space Programme. This handbook is a handy and new tool designed as a collection of fact sheets with concise information and guidance on the different aspects to be observed during each phase of the project life cycle.

However, this handbook does not replace any other documents, and we invite the partners to study carefully the Operational Programme, the EU-structural funds regulations and other relevant information provided by the Partner State in which the respective project partner is situated.

This handbook is meant to be interactive: simply tick the fact sheet which is of interest for you and the respective document will automatically be opened. If the fact sheets would be updated by the Programme, a news will then be published on the Programme's website and the new version made available for download at [www.alpine-space.eu](http://www.alpine-space.eu).

We hope you will find this handbook useful and wish you a successful implementation of your Alpine project!

Managing Authority and Joint Technical Secretariat  
December 2007

# Table of Contents

## **1 Project Generation**

---

Fact Sheet 1.1: Project generation

## **2 Project Development**

---

Fact Sheet 2.1: Who can participate?
