The eMS in few words

The e-Monitoring System in few words

- Reply to e-cohesion needs and requirements
- Being developed by Interact, together with Interreg programmes
- Used by more than 30 Interreg programmes
- Common IT environment for project holders

How to access the platform?

The screenshot shows the homepage of the Interreg Alpine Space website. At the top left is the logo with the text "Interreg Alpine Space" and the European Union flag. To the right are links for "NEWSLETTER SUBSCRIPTION", "NATIONAL PAGES", and "CONTACTS". A decorative graphic of overlapping green and red triangles is on the right. Below the header is a navigation menu with "About", "Project application", "Project management", "Project results", and "News & events". A date indicator shows "14 | 20". The main content area features a large banner with two images: a mountain landscape and a city at night. Below the banner is a headline: "Transnational cooperation helps to reduce regional disparities and increases cohesion in specific territories" with hashtags "#MadewithAlpineSpace" and "#MadewithInterreg". Below the banner are two columns: "News" and "Events". The "News" column lists two items: "Fourth call for project proposals launched!" (19.09.18) and "The UIA is looking for a new project officer!" (10.09.18). The "Events" column lists two items: "AlpBioEco & bioeconomy lecture" (23.10.18) and "Meet & Match forum 2018, Salzburg" (23.10.18). To the right of these columns is a green box with the text "Cooperation stories: download the brochure!" and "Alpine Space and EUSALP". A red box highlights a logo for "ems* electronic monitoring system" developed by "cpb software", with "INTERACT" and the European Union flag below it. A red arrow points from the text "Accessible via our website" at the bottom left towards this highlighted logo.
