Together we move mountains!

21-22 March 2017 | Milan | Italy

Results of thematic session F

# “Move your mountains” session

The aim of this session was to offer a **networking and matching opportunity** to the project participants along the seven specific objectives of the programme.

Based on the mountains (identifying remaining needs/challenges in their specific objective) they had created the day before, the participants met in groups of about 3 people to turn these needs/challenges into ideas for potential projects. This was done on a “**mountain range**” **template**, which structured the discussion to identify joint objectives, activities and solutions to the identified challenges and was a starting point for developing ideas and partnerships.

After drawing the outline of their own mountain and naming the common challenge, the teams discussed the following:

- proposed solution to the identified challenge,
- expected change/result,
- concrete steps towards the solution,
- what could be difficult project phases.

# “Move your mountains” session

<p><b>Our mountain range</b> (Common challenge for our rope team)</p>	<p>Synergy between ecosystems and society</p>		
<p><b>Rope team</b> (Institution/representative)</p>	<p><b>Hiking destination</b> (Solution to the common challenge)</p>	<p><b>Landmarks</b> (Concrete steps towards the solution)</p>	<p><b>Challenging sections</b> (Difficult project phases)</p>
	<p>Inclusive ecosystem services</p>	<p>Measuring benefits for different categories</p>	<p>Reconciling different key lectures</p>
	<p><b>At the summit</b> (Expected change/result)</p>	<p>Multi-functionnal approach</p>	<p>Conflictual conjoint site</p>
	<p>Synergy tool kit</p>	<p>Education to raise awareness</p>	

# “Move your mountains” session

<p><b>Our mountain range</b> (Common challenge for our rope team)</p>	<p>Better standards of life in Alpine areas</p>		
<p><b>Rope team</b> (Institution/representative)</p>	<p><b>Hiking destination</b> (Solution to the common challenge)</p>	<p><b>Landmarks</b> (Concrete steps towards the solution)</p>	<p><b>Challenging sections</b> (Difficult project phases)</p>
	<p>Fostering the transition to the agroecology paradigm</p>	<p>Id. &amp; involvement of key stakeholders</p>	<p>Concrete participation (no interest)</p>
	<p><b>At the summit</b> (Expected change/result)</p>	<p>Test &amp; sharing of good practices</p>	<p>The results of the trial are not effective</p>
	<p>Increase of biodiversity landscape (positive impact)</p>	<p>Promoting educational / information path</p>	<p>Tools are not able to reach a wide public</p>

# “Move your mountains” session

<p><b>Our mountain range</b> (Common challenge for our rope team)</p>	<p>Win-win solutions for humans and nature</p>		
<p><b>Rope team</b> (Institution/representative)</p>	<p><b>Hiking destination</b> (Solution to the common challenge)</p>	<p><b>Landmarks</b> (Concrete steps towards the solution)</p>	<p><b>Challenging sections</b> (Difficult project phases)</p>
	<p>Improve coexistence between human activities and „wild“</p>	<p>Selection of most important es. provided in the area</p>	<p>Bad and exploited communication by media</p>
	<p><b>At the summit</b> (Expected change/result)</p>	<p>Detect potential conflicts with human activities</p>	<p>Some es. role could be not easy to communicate and define</p>
	<p>Value of es. will be integrated in local policies (different target groups)</p>	<p>Find common win-win solutions to propose to decision makers</p>	<p>Moving from decision to policy can be too long and not effective</p>

# “Move your mountains” session

<p><b>Our mountain range</b> (Common challenge for our rope team)</p>	<p>Ecorise: ecosystem-based (natural) risk reduction</p>		
<p><b>Rope team</b> (Institution/representative)</p>	<p><b>Hiking destination</b> (Solution to the common challenge)</p>	<p><b>Landmarks</b> (Concrete steps towards the solution)</p>	<p><b>Challenging sections</b> (Difficult project phases)</p>
	<p>Ecosystem-based (natural) risk reduction</p>	<p>Ecosystem-based risk assessment matrix</p>	<p>Evidence of ecosystem-based solutions efficiency</p>
	<p><b>At the summit</b> (Expected change/result)</p>	<p>Communication &amp; participation</p>	<p>Integration of stakeholders from the various levels</p>
	<p>Implementation of ecosystem-based solution for (multi-)risk reduction</p>	<p>Tools, case study Develop – test – final version Management guidelines</p>	<p>Conflict with existing rules &amp; regulations</p>

# “Move your mountains” session

<p><b>Our mountain range</b> (Common challenge for our rope team)</p>	<p>Water use conflicts and ES approach</p>		
<p><b>Rope team</b> (Institution/representative)</p>	<p><b>Hiking destination</b> (Solution to the common challenge)</p>	<p><b>Landmarks</b> (Concrete steps towards the solution)</p>	<p><b>Challenging sections</b> (Difficult project phases)</p>
	<p>Ideal water management (EUSALP AG 6)</p>	<p>Identification of ES at basin level (from AlpES)</p>	
	<p><b>At the summit</b> (Expected change/result)</p>	<p>Implementation of participatory approach (from SPARE)</p>	
	<p>Reduction of conflicts in water use</p>	<p>Platform from different users</p>
