| ID     | Acronym         | Programme priority                      | Programme specific objective  |
|--------|-----------------|---|---|
| ASP383 | LOS_DAMA!       | Priority 3 - Liveable Alpine Space      | SO3.1 - Sustainably valorise Alpine Space cultural and natural heritage                                     |
| ASP384 | YOUrALPS        | Priority 3 - Liveable Alpine Space      | SO3.1 - Sustainably valorise Alpine Space cultural and natural heritage                                     |
| ASP385 | S3-4AlpClusters | Priority 1 - Innovative Alpine Space    | SO1.1 - Improve the framework conditions for innovation in the Alpine Space                                 |
| ASP390 | GoApply         | Priority 4 - Well-Governed Alpine Space | SO4.1 - Increase the application of multilevel and transnational governance in the Alpine Space             |
| ASP392 | CARE4TECH       | Priority 1 - Innovative Alpine Space    | SO1.1 - Improve the framework conditions for innovation in the Alpine Space                                 |
| ASP397 | AlpSib          | Priority 1 - Innovative Alpine Space    | SO1.2 - Increase capacities for the delivery of services of general interest in a changing society          |
| ASP399 | Links4Soils     | Priority 3 - Liveable Alpine Space      | SO3.2 - Enhance the protection, the conservation and the ecological connectivity of Alpine Space ecosystems |
| ASP407 | PlurAlps        | Priority 1 - Innovative Alpine Space    | SO1.2 - Increase capacities for the delivery of services of general interest in a changing society          |
| ASP409 | IMEAS           | Priority 2 - Low Carbon Alpine Space    | SO2.1 - Establish transnationally integrated low carbon policy instruments                                  |

|        |               |   |   |
|--------|---------------|---|---|
| ASP413 | e-MOTICON     | Priority 2 - Low Carbon Alpine Space    | SO2.2 - Increase options for low carbon mobility and transport  |
| ASP428 | ALPBIONET2030 | Priority 3 - Liveable Alpine Space      | SO3.2 - Enhance the protection, the conservation and the ecological connectivity of Alpine Space ecosystems |
| ASP432 | AlInnoCT      | Priority 2 - Low Carbon Alpine Space    | SO2.2 - Increase options for low carbon mobility and transport  |
| ASP438 | CaSCo         | Priority 2 - Low Carbon Alpine Space    | SO2.1 - Establish transnationally integrated low carbon policy instruments                                  |
| ASP445 | HyMoCARES     | Priority 3 - Liveable Alpine Space      | SO3.2 - Enhance the protection, the conservation and the ecological connectivity of Alpine Space ecosystems |
| ASP452 | GREENCYCLE    | Priority 2 - Low Carbon Alpine Space    | SO2.1 - Establish transnationally integrated low carbon policy instruments                                  |
| ASP460 | DesAlps       | Priority 1 - Innovative Alpine Space    | SO1.1 - Improve the framework conditions for innovation in the Alpine Space                                 |
| ASP462 | RockTheAlps   | Priority 3 - Liveable Alpine Space      | SO3.2 - Enhance the protection, the conservation and the ecological connectivity of Alpine Space ecosystems |
| ASP467 | GaYA          | Priority 4 - Well-Governed Alpine Space | SO4.1 - Increase the application of multilevel and transnational governance in the Alpine Space             |
| ASP478 | SMART-SPACE   | Priority 1 - Innovative Alpine Space    | SO1.1 - Improve the framework conditions for innovation in the Alpine Space                                 |
| ASP489 | SCALE(up)ALPS | Priority 1 - Innovative Alpine Space    | SO1.1 - Improve the framework conditions for innovation in the Alpine Space                                 |
| ASP499 | ASTUS         | Priority 2 - Low Carbon Alpine Space    | SO2.2 - Increase options for low carbon mobility and transport  |
