

# Bioeconomy resources

France Clusters, PP12

## Websites:

### French Ministry of Agriculture and Food

<https://agriculture.gouv.fr/infographie-la-bioeconomie-une-approche-nouvelle-pour-des-solutions-durables>

Presentation of the French bioeconomy strategy and related news

### French Environment & Energy Management Agency (ADEME)

[http://multimedia.ademe.fr/infographies/infographie\\_bioeconomie/](http://multimedia.ademe.fr/infographies/infographie_bioeconomie/)

Animated infography about bioeconomy and the strategy of the Agency on this topic

### New Industrial France

<https://www.economie.gouv.fr/nouvelle-france-industrielle/nouvelles-ressources>

Webportal with a section „new resources“ and calls for projects to develop more efficient processes by promoting the emergence of new materials, the use of renewable resources, the recovery of waste and, in general, the circular economy

### Auvergne Rhone Alps Regional Delegation for food, agriculture and forest of the Ministry of Agriculture and food (DRAAF)

<http://draaf.auvergne-rhone-alpes.agriculture.gouv.fr/Energie-chimie-verte-et-bio>

Section dedicated energy, green chemistry, and bioeconomy

### Auvergne Rhone Alps Regional Delegation of the Ministry of Ecological Transition (MTES) and of the Ministry of Territorial Cohesion and relations with local authorities (MCTRCT)

<http://www.auvergne-rhone-alpes.developpement-durable.gouv.fr/biomasse-a10972.html>

### The circular economy network in Auvergne-Rhône-Alps (ECLAIRA)

<https://www.eclaira.org/index,en.html>

Network open to all public and private stakeholders to identify initiatives, generate projects and thereby promote implementation of the circular economy in the area by all those involved.

### IAR pole, the French Bioeconomy Cluster

<https://www.iar-pole.com/la-bioeconomie>

Presentation of the bioeconomy in France (facts and figures, national strategy, etc)

### Agrobiobase

<http://www.agrobiobase.com>

Showcase of bio-based products and their suppliers giving users key data (bio-based content, environmental impact, technical information, etc available in French and English) to help their sourcing. It was developed and is managed by IAR, the French Biocluster.

### “Bioenergie International”

<https://www.bioenergie-promotion.fr/>

Francophone International magazine and information webportal on bioenergies

### Enviscope

<https://www.enviscope.com/category/actualites/bioeconomie/>

News about environment in Auvergne Rhone Alps with a section dedicated to bioeconomy

### [avniR] Life Cycle Assessment (LCA) platform

<http://avnir.org/EN/The-platform-6.html>

Collaborative platform and resource center, bringing together expertise from business clusters, research institutions, universities, local authorities and government bodies to help businesses

from all sectors develop better products, systems and services through life cycle management.

### **Biomass Conseil (consultancy on biomass)**

<http://biomasse-conseil.fr/content/articles-biomasse-et-filieres-vertes>

News and calls for projects related to bioeconomy

- French General Directorate for Enterprises, [Identification of bio-based products available on the market and identification of target public markets](#), Mai 2016

## AlpLinkBioEco Partners

### AlpLinkBioEco develops

1. Database to map existing resources, actors and relevant policies in the Alpine Space
2. Methodology to match actors for new value chains
3. New (cross)-regional value chains
4. Policy recommendations for the development of bioeconomy in the Alpine Space
