

# CESBA-

**100% assessment of the built environment**

**[www.CESBA.eu](http://www.CESBA.eu)**

CESBA is a collective European bottom-up initiative that provides knowledge on harmonised built environment assessment.

The vision of CESBA is a Europe where high quality living in a sustainable built environment is the common standard.

CESBA's mission is to facilitate the diffusion and adoption of sustainable built environment principles among all the stakeholders through the use of harmonized assessment systems.

Therefore CESBA wants to be Europe's leading organization for the harmonization of built environment assessment systems.

## THE 9 CESBA PRINCIPLES

The User First!  
Sustainability  
Regional Contextualization  
Comparability  
Mass-oriented  
Simple to use  
Open source  
Co-creation  
Transparency

### **CESBA Sprint Workshop**

The CESBA Sprint Workshops offer the possibility to work for three days intensively on a certain topic and establish a strong relationship with other experts.

### **CESBA Neighborhood Award**

The aim of the CESBA Neighborhood Award is to collect interesting examples of sustainable neighbourhood developments in Europe. CESBA analyses, evaluates, and fosters the exchange and networking of stakeholders.

### **CESBA Tools & Training**

CESBA develops tools on assessing the sustainable built environment and offers training to use these tools.

### **KNOWLEDGE HUB**

CESBA wiki ([wiki.cesba.eu](http://wiki.cesba.eu)) collects and disseminates outputs from EU-projects related to sustainable built environment assessment.

# CESBA MEMBERS

# ORGANISATIONS INVOLVED IN THE DEVELOPMENT OF CESBA

# BECOME A MEMBER

Do you want to determine future developments in the built environment, at local and at European level? Become a member!  
Together we create impact on the quality of our lives!
