4TH INTERNATIONAL CLUSTER CONFERENCE
S3-4AlpClusters Final Conference

The S3-Innovation Model Toolkit
Overview of the Toolkit
Simone Weiss, Project Manager, ITG Salzburg, Austria

Venice, March 14, 2019

This project is co-financed by the European Regional Development Fund through the Interreg Alpine Space programme
Training Tool kit: How to …

The **S3-Innovation Model** proposes:

- **Systematic process** for **cluster initiatives** and regions to explore capacities and opportunities for transformation.
- **Set of tools** to identify, develop and implement **transformative activities**

---

**How?**

The **Training Tool Kit**

- Key element of the dissemination activities to transfer the project results
  - Support for the implementation of the S3-Innovation Model
  - Step by step guidance for the individual tools
S3-Innovation Model

1. Generate a base of evidence
2. Identify TA
3. Identify TA to be implemented cross-regionally
4. Develop actions to implement TA regionally or cross-regionally
5. Synchronize funding
6. Regional or cross-regional implementation of TA
7. Monitoring and evaluation of TA

BASE OF EVIDENCE ➔ IDENTIFICATION ➔ DEVELOPMENT ➔ IMPLEMENTATION ➔ MONITORING

Tools:
- Quantitative and qualitative analysis
- StressTest
- Synergy Diamonds
- EDW: Entrepreneurial Discovery Workshops
- cEDW: cross-regional Entrepreneurial Discovery Workshops
- ADW / cADW: Action Development Workshops
- ACIE: Synchronized Funding Scheme
- TACT: Transformative Activities Cluster Toolbox
- TAET: Transformative Activities Evaluation Toolbox

5 Action Lines ➔ 7 Steps ➔ 8 Training Tools

Interreg Alpine Space S3-4AlpClusters

Smart Specialisation with Smart Clusters
8 Training Tools for the S3-Innovation Model

1. Base of Evidence
   - Qualitative & Quantitative Analysis
   - Stress Test
   - Synergy Diamond

2. Identification
   - Entrepreneurial Discovery Workshop
     regional / cross-regional

3. Development
   - Action Development Workshop
   - Synchronized Scheme

4. Implementation
   - TA Cluster Toolbox

5. Monitoring
   - TA Evaluation Toolbox
Type and content of the Training Tools

Slide sets with the following content:

- **Background information** & key concepts
- **Objective** of the respective tools
- **Steps/components/methods** of the tools
- **Variation** e.g. for cross-regional application
- **Examples** and experiences from the project
- **Success factors**
- **Contact** and links for further information
