

Action Development Workshop (ADW)

Rivalta Scrivia, July 9th, 2018

Proplast organized the Action Development Workshop (ADW) for the S3-4AlpClusters – Smart Specialization Strategies to build an Innovation Model for Alp Clusters project on July 9th, 2018.

The Piedmont Innovation Regional Clusters managers invited were Biomed Cluster, allocated in the Bioindustry Park of Colletterto Giacosa (Turin), and Clever Cluster, allocated in the Environment Park of Turin.

The goal of the meeting was prepared together actions to implement and develop Transformative Activities to gain critical mass in Piedmont.

The Transformative Activities selected to be develop will be New Materials and Circular Economy. These activities are perfectly combined because together can create synergies between the development of the new materials and their waste management and because these activities can join

the companies members of the three clusters in order to offer new services to their members.

During the meeting, the participants were actively involved and interested developing the Innovation Model. Indeed the Clusters managers decided to organize together a public event at the end of 2018.
