The SmartVillages Project as a ladder game

Get acquainted to 13 partners, physical meetings allowed. 2 steps forward.

Define 11 test areas and do a regional analysis.
2 steps forward.

Build 9 RSGS involving business, academia, civil society and policy. 2 steps forward.

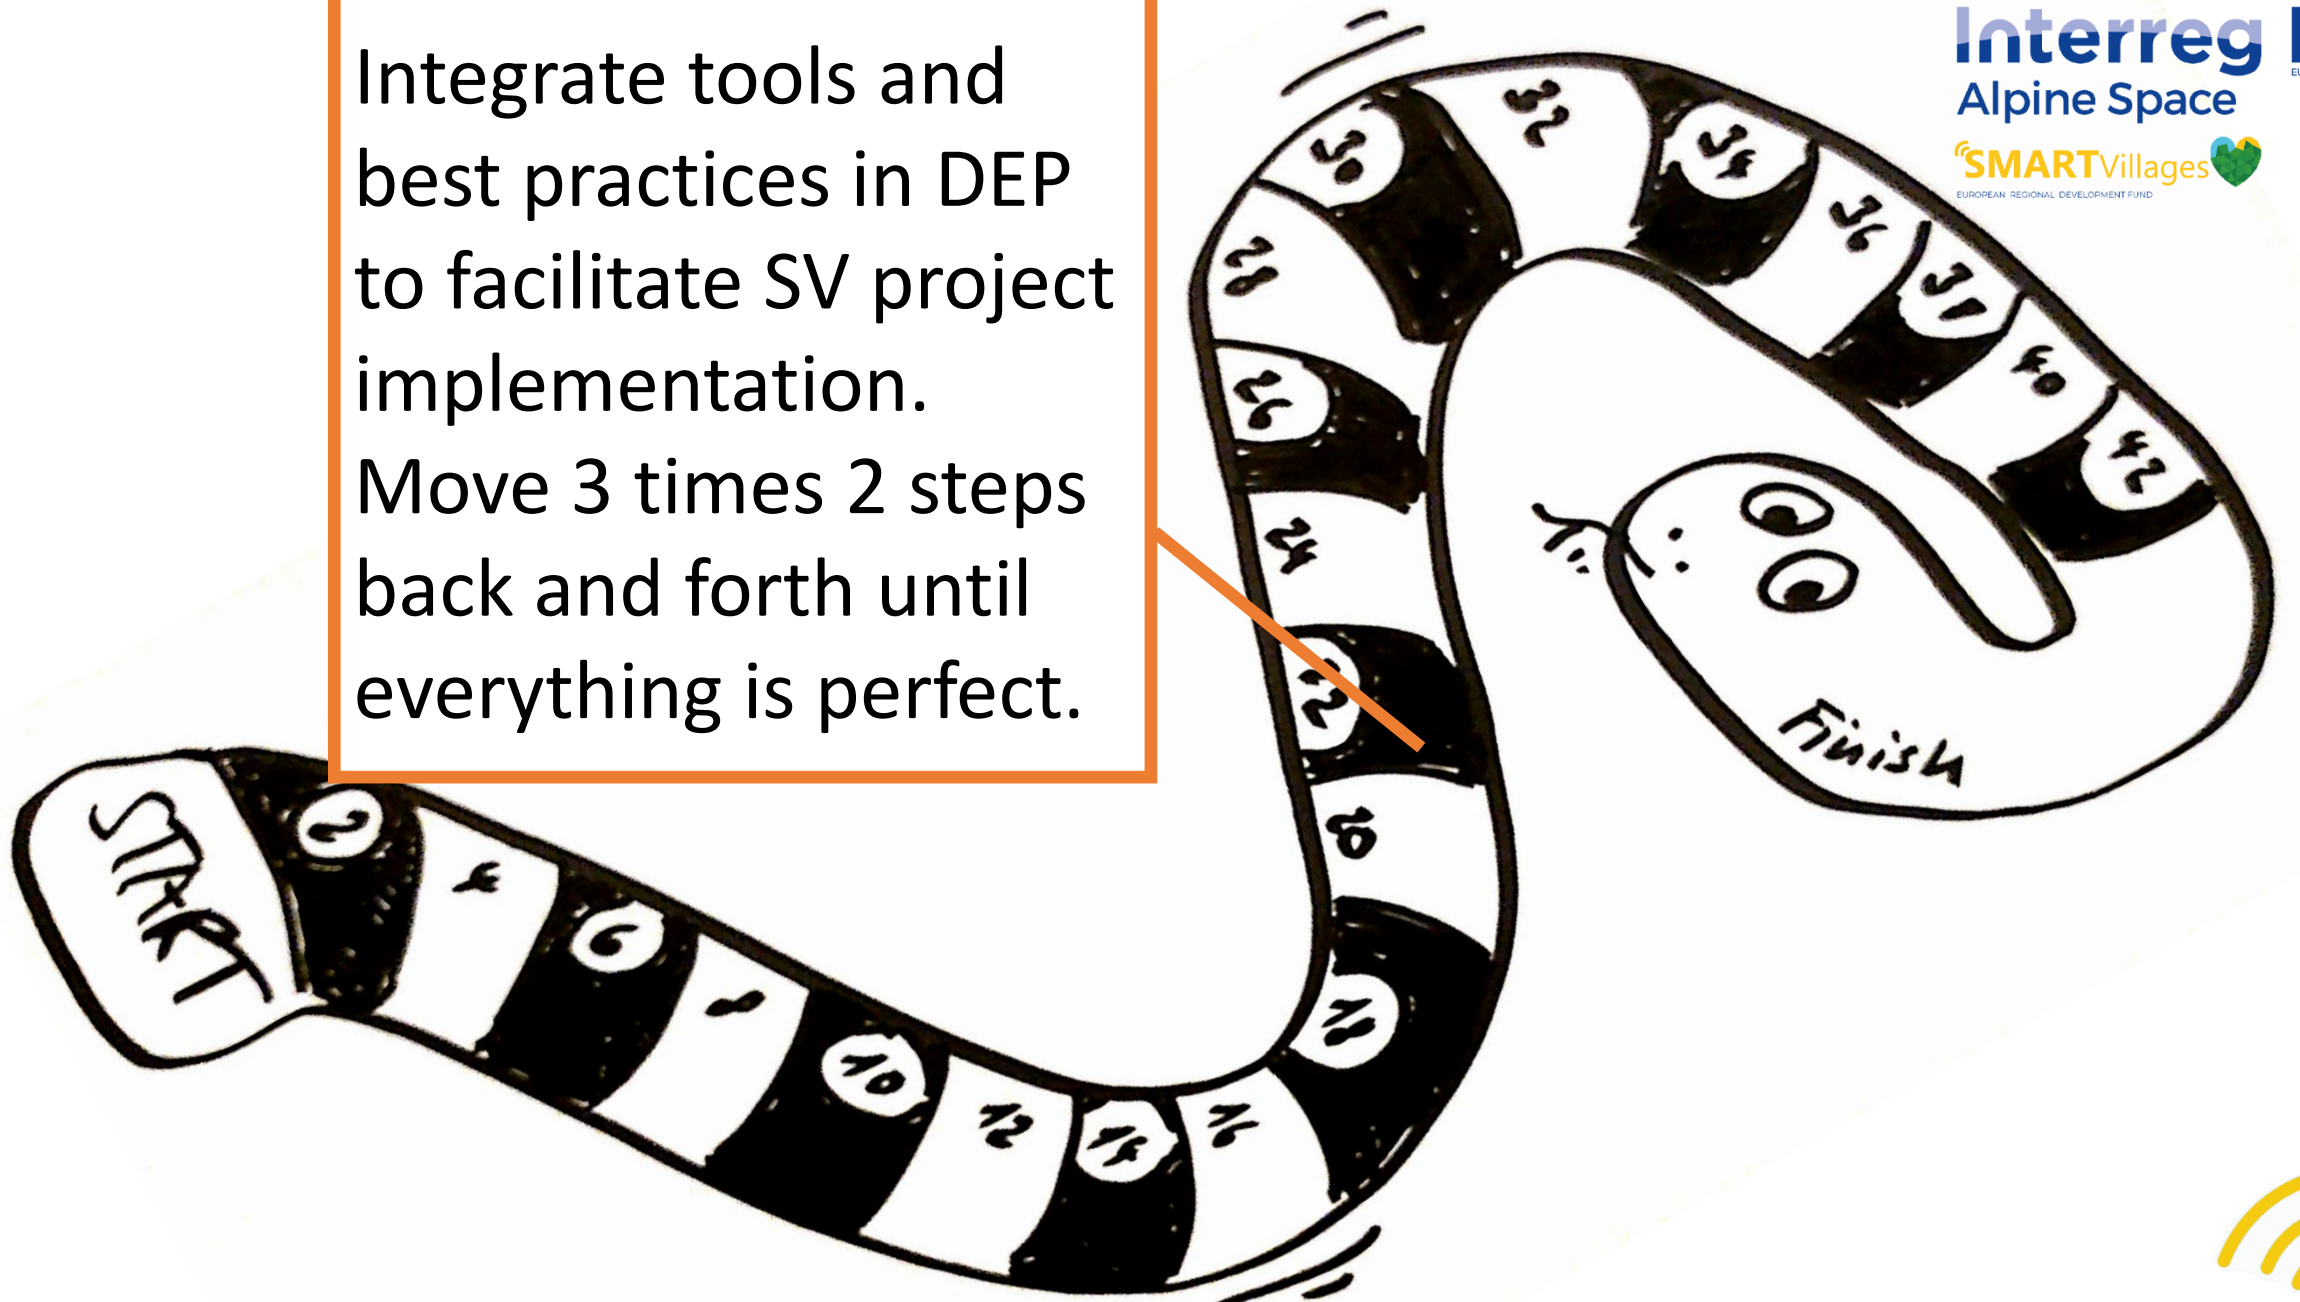

Develop 21 pilot activities together with the 9 RSGS in the 11 test areas. 2 steps forward.

Create a DEP in order to facilitate exchange among a maximum of SV stakeholders. 2 steps forward.

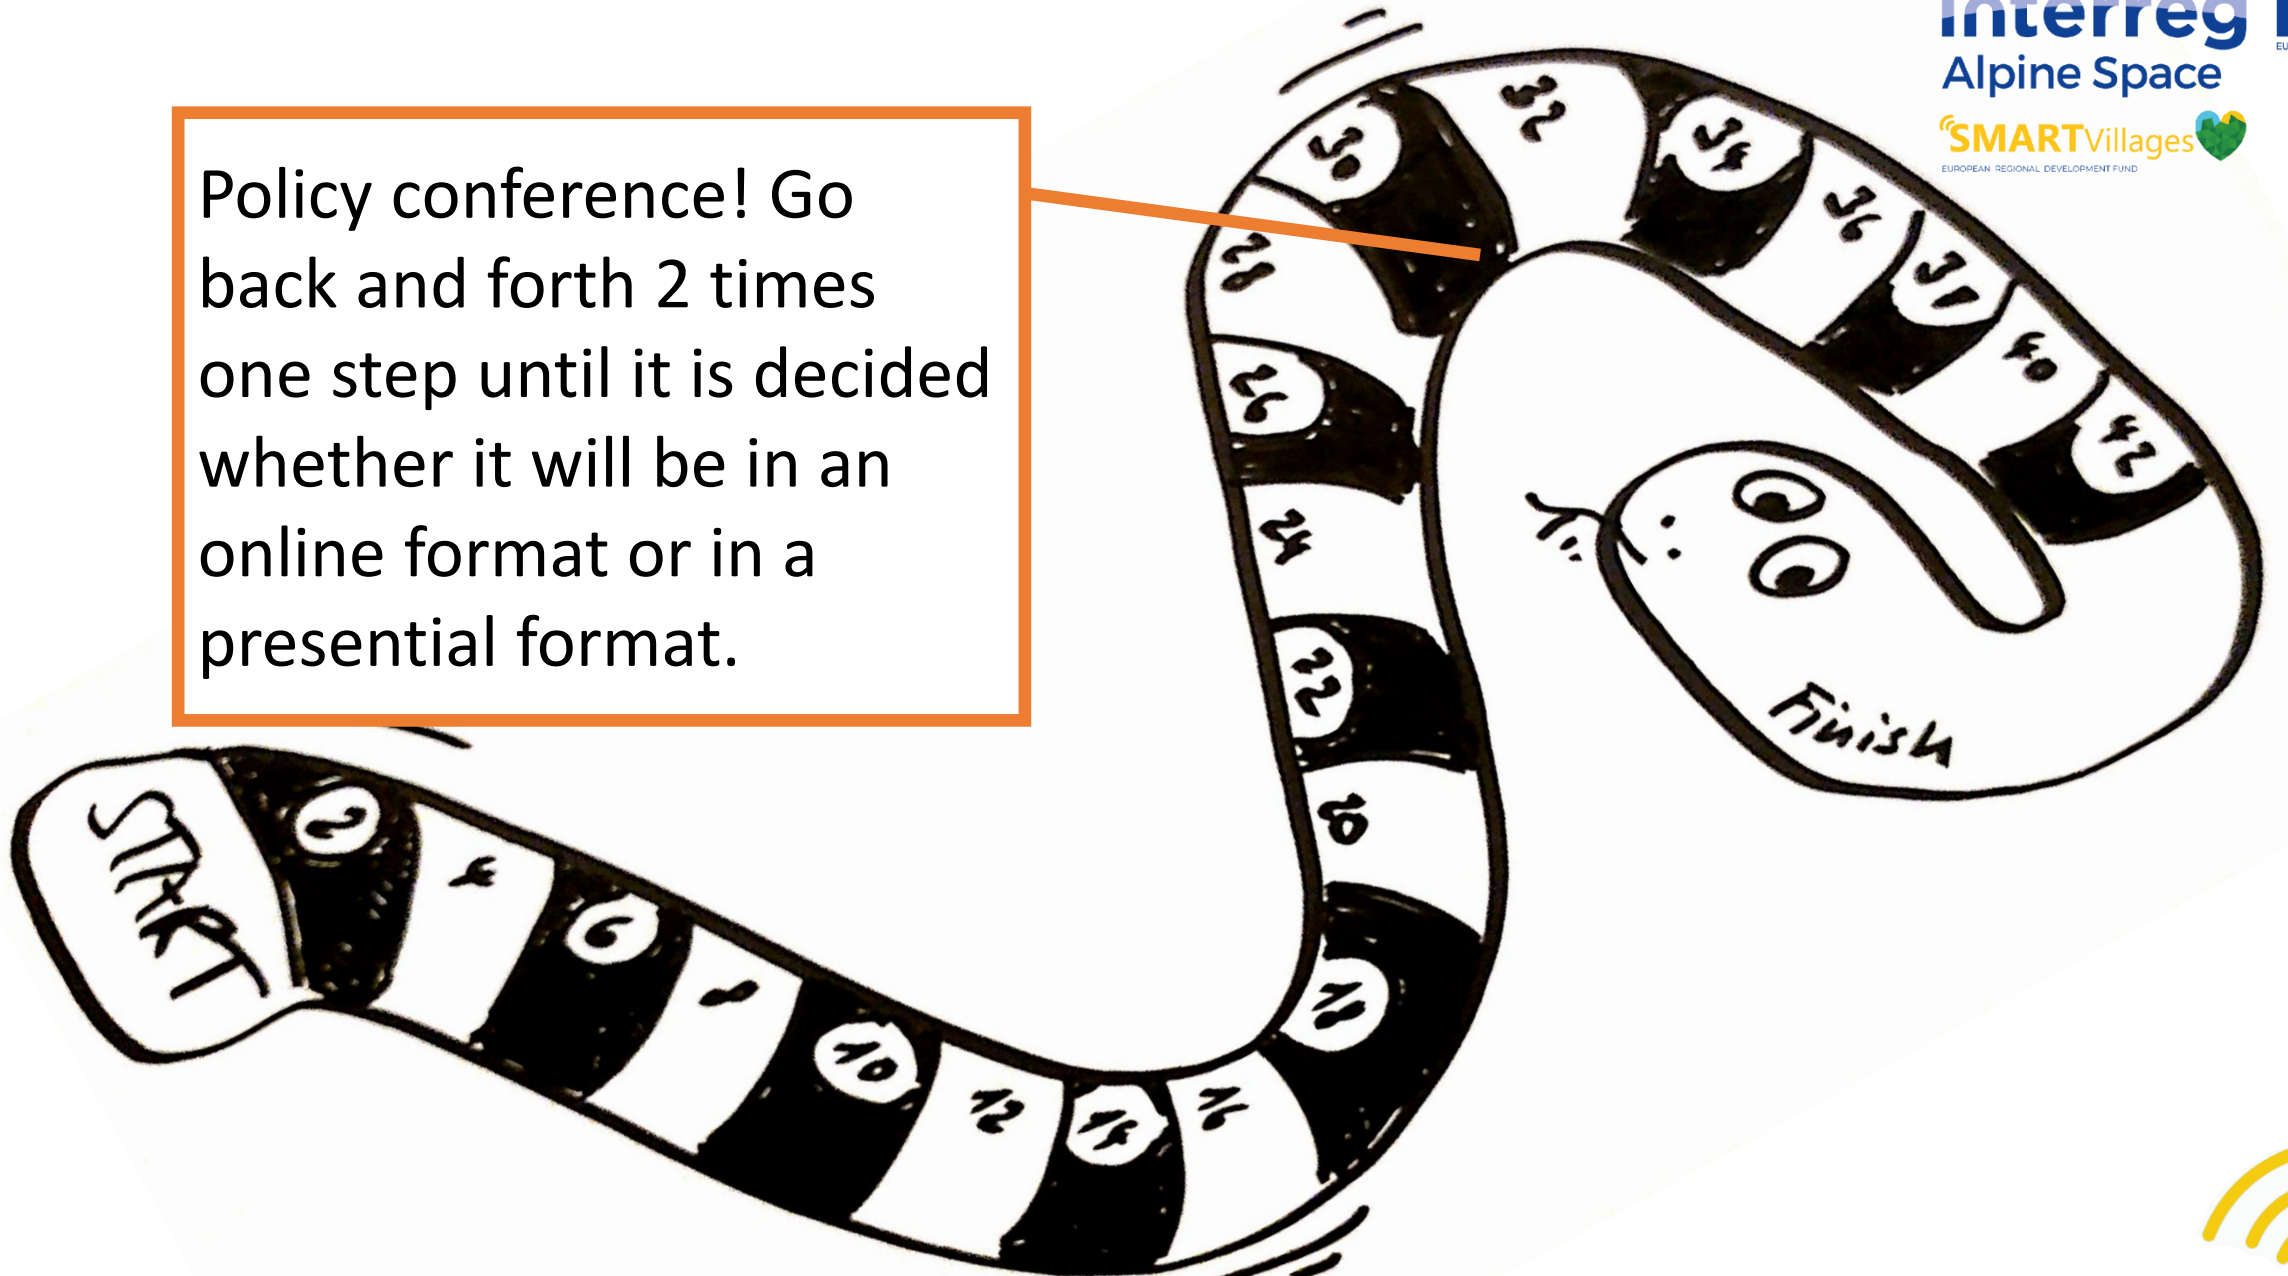

Integrate tools and best practices in DEP to facilitate SV project implementation.
Move 3 times 2 steps back and forth until everything is perfect.

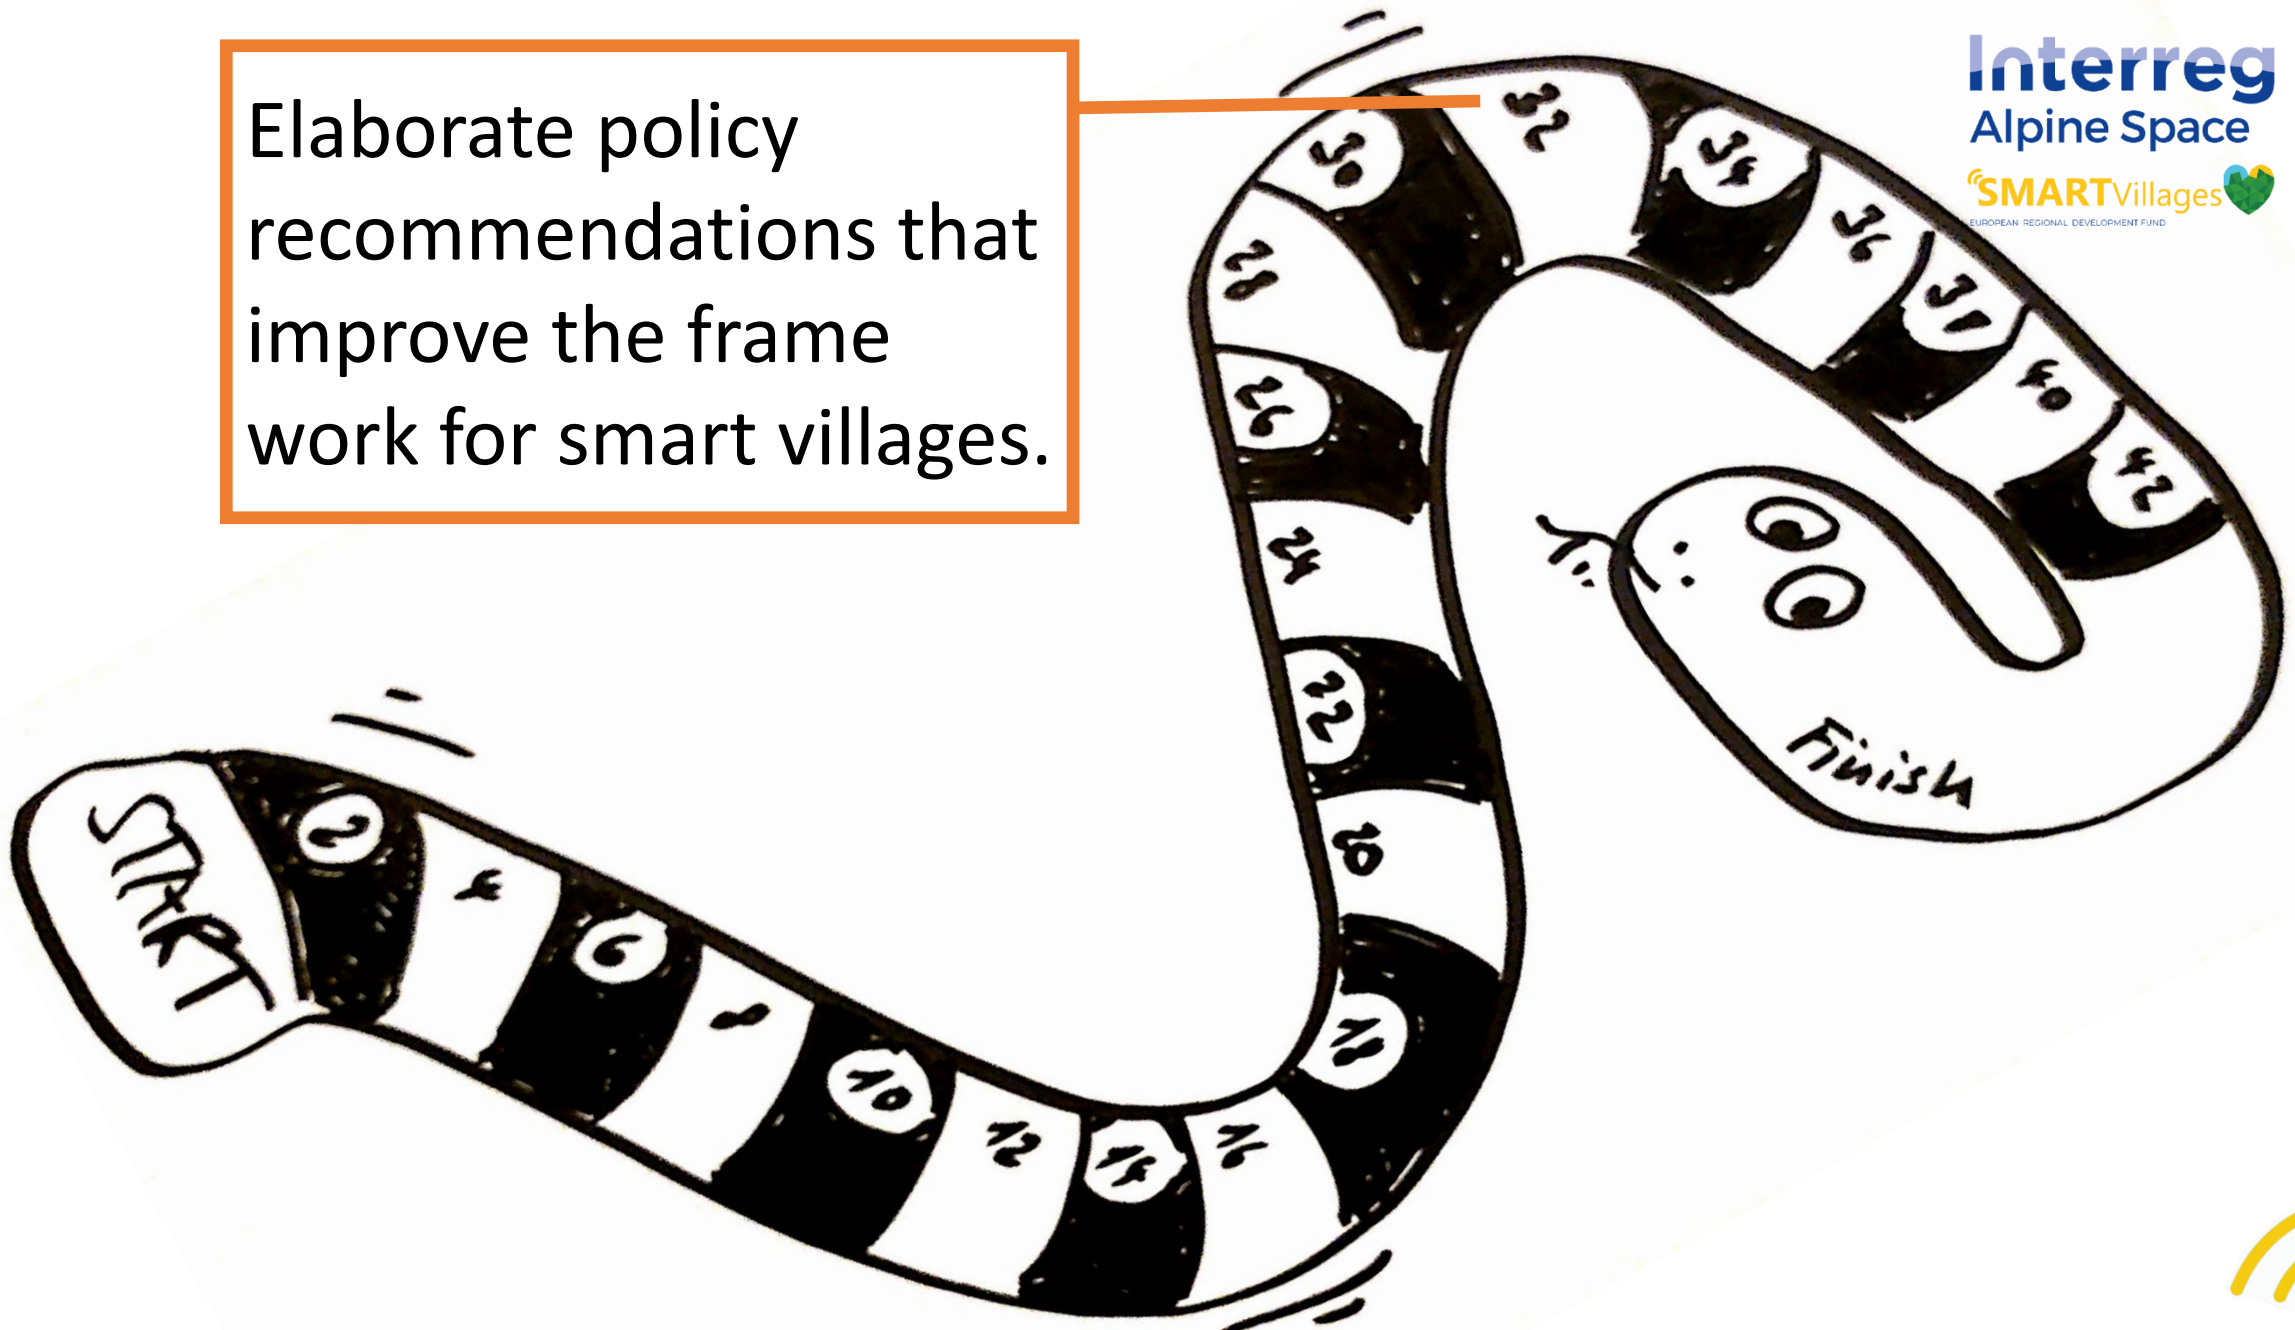

Corona crisis! Think everything in an online way or go back to Start.

Policy conference! Go back and forth 2 times one step until it is decided whether it will be in an online format or in a presential format.

Elaborate policy recommendations that improve the framework for smart villages.

Your project has been extended by 6 months, move forward until all pilot activities are fully implemented.
