

Where are we now?	<b>Name:</b> <hr/> <b>Town of Chambéry, Savoie, France</b>	<b>Members of local steering group:</b> <i>Write down names and contacts (emails)</i> <hr/> Bérangère Zowiez-Neumann, Samuel Caillault, Sylvie Coska, Nathalie Collin-Cocchi						
	<b>Territory in 150 words</b> <i>Briefly describe the territory and point out to main social, economic, cultural, political and environmental characteristics.</i> <hr/> <p>                         Chambéry is the main town of the département of Savoie, in the French Region Auvergne-Rhône-Alpes. It is located between the Bauges and Chartreuse mountains, at the gateway to the Alps and on the shores of the largest lake in France, Lake Bourget. Chambéry benefits from an exceptional position at the crossroads between France and Italy and between Northern and Southern Europe. It benefits from a mountain climate attenuated notably by its low altitude (270 m).                     </p> <p>                         As the capital of the House of Savoy during three centuries, the city kept from this prestigious past an imposing ducal castle and picturesque old districts. Crossed by a majestic street lined with "piedmontese" porticoes, they are largely pedestrian and restored. The many private houses, built between the Renaissance and the Revolution, are rich in spiral staircases, beautiful ironwork and optical illusion decors. They are served by a mysterious maze of passages under and behind the houses.                     </p> <p>                         Chambéry is a city between lakes and mountains that offers numerous possibilities and high quality equipments for numerous sport types, including water and winter sports, cultural activities, very active associations. On the competition side, the handball team, Chambéry Savoie, is one of the best French clubs, and its team of professional cyclists AG2R is very successful.                     </p> <p>                         These assets have not failed to attract a growing number of students, including foreigners, to Chambéry. The University of Savoie has its heart in the city center of Chambéry, with three decentralised sites in Annecy-le-Vieux, le Bourget-du-Lac and Jacob-Bellecombette. It has very specialized training adapted to its alpine environment.                     </p>							
	<b>3 main developmental challenges:</b> <i>List three main developmental challenges of the territory in the next 10 years.</i> <hr/> <div style="text-align: center;">                         1. Valorisation and attractiveness of the city center                          2. Tourism development                          3. Economic development                     </div>							
	<b>Youth: Status quo</b> <i>Briefly describe the status quo of youth – demographics, trends, activities, needs, wishes ...</i> <hr/> <p> <b>Population between 11 and 25:</b> 12,612 persons (21.2% of population): 4,717 adolescents aged 11 to 17; 7,895 young adults aged 18 to 25, including 3,299 middle school and 5,849 high school students in six "collèges" (middle school) and nine high schools.                     </p> <p> <b>Leisure, sport, culture:</b>                           37% of the 18-24 year old inhabitants of the département Savoie department take part in an associative activity, particularly within a sports association (79% of respondents). The cultural practice of the inhabitants aged 18-24 years mainly concerns the cinema (21% of the respondents go there at least once a year and 41% at least once a quarter). One-third of young people aged 18 to 24 say they are happy with their leisure activities                     </p>	<b>Youth in a graph:</b> <i>Include one or more graphs that depict the status of youth at best.</i> <hr/> <p style="text-align: center;"><b>Young population of Chambéry by age groups</b></p> <table border="1"> <thead> <tr> <th></th> <th>Number</th> <th>Percentage of total population (en %)</th> </tr> </thead> <tbody> <tr> <td>Less than 3years</td> <td>2322</td> <td>3,90</td> </tr> </tbody> </table>			Number	Percentage of total population (en %)	Less than 3years	2322
	Number	Percentage of total population (en %)						
Less than 3years	2322	3,90						

#### Social networks:

89% of 18-24 year olds have one or more accounts, mostly connected to their smartphone (73%) and use more Facebook, Snapchat, and Instagram.

#### Employment and training:

Great instability and precarity of employment among 18-24 year olds: 49% of young people on permanent contracts compared to 69% for all employed persons aged 15 and over; There are also 23% of young part-time workers against 16% of the active population of the department.

The vast majority of 18-24 year olds in employment have an average net salary of less than € 1,300 (72%).

Two-thirds experienced an episode of unemployment or inactivity before entering the workforce, while 20% experienced several episodes of unemployment or inactivity.

For students, the financing of their studies is a major concern, and constitutes a barrier for 49% of them.

#### Housing:

31% of young people in employment and 50% of young people looking for work are still living with their parents. 26% of employed youth and 40% of job seekers were unable to cope with some housing related expenses in the previous 12 months.

#### Future prospects:

In the short term, young people aged 18 to 24 are mainly concerned about their financial independence (43%), but also about their health (41%). The young people interviewed raised the point that they do not feel considered by society in the same way as other age groups or population groups.

### Main obstacles in youth participation:

*Describe the main obstacles in the participation of youth in decision-making.*

The first main obstacle in citizen participation and youth participation is the mobilization of citizen, especially over time. The students and the workers don't have the time or the reflex to participate. The second main obstacle is the representativeness of citizen. People at low socioeconomic level are harder to mobilize.

### Vision Statement

What is your 10-year vision in the field of youth participation?

In 10 years, the youth policy developed from the ideas and input of the young citizens of Chambéry will have shown successful implementation and allowed young people to identify more strongly with their town and be involved in other policy sectors. A culture of youth participation will be established, amongst the politicians, administrations, youth organisations and young people, having carried fruits in various sectors and projects.

### 3 SMART objectives

*List three main objectives in the field of youth participation (theme, target value, agent, time frame).*

1. Write and adopt a new youth policy for the municipality, based on the voice of youth. For this consult the young citizens of Chambéry, between 11 and 25 years old.
2. Better coordinate different youth organisations and offers in Chambéry
3. Strengthen the understanding and culture for youth participation, amongst young inhabitants of Chambéry and the municipality (politicians and administration)
4. Establish a long term culture and frame for youth participation in the local public life
