

The year 2019

Facts and figures

New solutions for the Alpine Region

Since 2014, the Alpine Space programme has funded **64 transnational cooperation projects**, distributing by the end of 2019 **more than € 47 Mio. EU funds** to partners in the Alpine countries.

In 2019, the Alpine Space projects delivered:

-  27 strategies & policy papers
-  18 networks
-  90 tools & guidelines

Find them in our

Dialogue on the future is launched!

Mid 2019 the programme started the **programming process for the 2021-2027 period**. A dedicated task force is drafting the new cooperation programme.

We need you: help us shape the future Interreg Alpine Space programme! More information [here](#).

Cooperation with EUSALP & AlpWeek

The Alpine Space programme actively contributed to the [3rd annual forum of the EUSALP](#). Five projects presented their results. Read more [here](#).

The cooperation between the programme and the projects and EUSALP is manifold. Discover snapshots in the [Alpine cooperation stories](#) brochure!

The Alpine Space programme also co-organised the **Alpweek Intermezzo**. [GaYA](#), [PlurAlps](#) and [SPARE](#) were presented through market stands, which opened the discussions on „Tomorrow in the Alps“. More information on the Alpweek Intermezzo [here](#).

Alpine Space projects highlights

The Alpine Space project [LOS DAMA!](#) became finalist of the [RegioStars Awards](#), the competition for EU-funded projects demonstrating excellence and new approaches in regional development.

[LOS_DAMA!](#) brings together city-regional stakeholders with the aim of protecting liveable open spaces while also connecting people and green spaces throughout the Alpine region.

[RocktheAlps](#) was highlighted (p. 12) in the [PANORAMA magazine](#) issue of July 2019 in an article about the added value of transnational cooperation in risk management. The text is part of a series of articles on the benefits of Interreg, which characterized „the European spirit in action“.
