

Greetings from the
Alpine Space Programme

AlpEnMat

The programme is co-funded
by the European Regional
Development Fund

AlpEnMAT

Over the past 7 years countless enterprises have been involved in Alpine Space projects dedicated to energy efficiency, renewable energy and sustainable mobility.

AlpEnMAT capitalised on their experience through an innovative networking concept which gave rise to a series of events called Jam Bites (Join Advanced Meetings on Business, Innovation, Technology, Energy). The project has thus provided a forum for SMEs in which to promote their innovative skills, products and services, thereby increasing their visibility on the local and global market. This networking platform simultaneously allows public service providers to find the best match, in terms of innovative solution offers, in order to deal with public demand.

Expected key achievements

- + 10 Jam Bite events (and 14 after project closure)
- + Database of innovative SME's, their products and services
- + Networking platform and web 2.0 portal for offer-demand match making: www.jam-bite.eu

EU support (ERDF) of over € 361,000
Duration 08.2013 - 12.2014

Alpine Energy Meetings on Advanced Technology
