

investing in your future

Greetings from the
Alpine Space Programme

ViSiBLE

The programme is co-funded
by the European Regional
Development Fund

ViSiBLE

Sustainable buildings have the potential to greatly contribute to a low-carbon economy, but the mismatch of regulations and assessment systems makes it difficult for a sustainable building environment to be realised in Europe.

ViSiBLE has capitalised on sustainable building and low carbon knowledge of the Alps in order to promote it on a European level. Having collaborated with the European CESBA initiative, which aims to harmonise sustainable building assessment measures across Europe, the project has created content for the initiative's online wiki for further knowledge dissemination. ViSiBLE presented the CESBA idea of harmonization to key policy makers in Brussels and at international events such as the World Sustainable Building Conference held in October 2014.

Expected key achievements

- + Integration of outcomes from 22 projects into CESBA initiative
- + Recommendations for 2014+ Alpine Space Programme future projects
- + Development of CESBA wiki and dissemination of its results

EU support (ERDF) of over € 375,000

Duration 09.2013 - 11.2014

Valorisation of Sustainable Alpine Space nearly zero-energy Building and Low-carbon Experiences
