

H2MA Newsletter n.2

ABOUT H2MA PROJECT

Interreg

Co-funded by
the European Union

H2MA

Alpine Space

H2MA works to **accelerate the transnational roll-out of green hydrogen mobility infrastructure** in the Alpine region, to **curb CO2 emissions** and **foster the transition to low-carbon transport**. Through the joint development of cooperation mechanisms, strategies, tools, and resources, the project will **increase the capacities of territorial public authorities and relevant stakeholders to collaboratively plan and pilot test zero-emission hydrogen routes across the Alps**.

11

PROJECT PARTNERS

21

OBSERVERS

5

COUNTRIES

36

MONTHS

As a result, H2MA will improve the governance of green hydrogen mobility, boost the uptake of green hydrogen for heavy transport, unlock green financing, and strengthen the cooperation framework between public authorities and companies involved in green hydrogen mobility.

WHAT WE HAVE BEEN UP TO...

Welcome to the 2nd official newsletter of the H2MA project!

In the last six months, the project consortium's focus was on:

- **Developing maturity scenarios on green H2 production and supply in Alpine regions.**
- **Joint development of the H2MA planning tool to design transnational green H2 mobility supply and distribution networks across the Alpine space.**
- **Organization of study visit in Strasbourg, France.**

For more information visit the [project website](#) and social media accounts ([Facebook](#), [LinkedIn](#)).

STUDY VISIT – STRASBOURG, FRANCE

After the last study visit in Augsburg on long-distance transportation, H2MA representatives of partners organizations met in person for the second study visit on Urban Transportation in Strasbourg. The meeting was held on the 19th and 20th September 2023, hosted by project partner Cluster Pole Véhicule du futur and Eurometropole of Strasbourg in France. Project partners, project observers and relevant stakeholders visited R-HYNOCA: Green Hydrogen and distribution unit and R-HYFIE: Hydrogen risk education platform.

You can read all the details and findings about the study visit [here](#).

PROJECT MEETING AND INTERACTIVE WORKSHOP: TURIN, ITALY

On 11th and 12th October 2023, H2MA project partners participated at project meeting and an interactive workshop focused on the development of the "H2MA tool", a GIS tool that will support the design of infrastructure networks of green H2 mobility as well as the optimisation of key nodes location (e.g., hydrogen power plants and hydrogen refuelling stations). Project partners and observers convened in Turin to review and discuss about it.

Read the article about the workshop meeting on our [project website](#).

TERRITORIAL PERSPECTIVES AND DEVELOPMENT POTENTIALS: ITALY

In the section on territorial perspectives and development potentials, you will be able to find new information on perspectives, potentials, and national legislations related to green hydrogen mobility per specific country in the Alpine region. In this issue of H2MA project newsletter you will be able to read all about the current situation in Italy.

Visit the [H2MA project website](#) to read about it.

TAKE A LOOK TO THE PROJECT DELIVERABLES

If you're eager to dig into the technical aspects of the projects, you're in luck! The project website now hosts all the official deliverables, offering in-depth information about every aspect of the projects. Whether you're an enthusiastic stakeholder, a curious developer, or an avid supporter, you'll find a treasure trove of technical insights to satisfy your seek for knowledge. The project website will be continuously updated with new project documents as the projects progress.

Visit the section 'resources' of the [project website](#) to find it out!

H2MA VIDEO PRESENTATION

An engaging video presentation of the project is now available to watch on the project page. Help us spread the word! Share the video on your social media platforms to reach as many curious minds as possible. Together, we can ignite a spark of curiosity and enthusiasm for sustainable H2 innovation!

Take a look at the video [here](#).
