TRANSTAT - TRANSITIONS TO SUSTAINABLE SKI TOURISM IN THE ALPS OF TOMORROW

FINAL WEBINAR Thursday, September 25, 2025 from 2:00 to 5:00 PM

How can mountain resorts navigate the complex path of transition — balancing tourism, climate change, local identity, and sustainability?

After nearly three years of intensive work in the field and close collaboration with a network of mountain resorts, the TranStat project is reaching its conclusion. To share the insights, learnings, and results of this journey, we warmly invite you to the TranStat Final Webinar.

During the session, we will:

- · highlight how the participatory, inclusive TranStat approach was implemented in the Living Labs
- explore the transition from a Social Network Analysis (SNA) to the creation of local governance structures that can drive and sustain transformation;
- discover the value of a shared, systemic territorial diagnosis, enabling stakeholders to collectively
 recognize local assets, challenges, and co-create future scenarios for tourism and regional development;
- gain insights into key policy recommendations, shaped by both intra- and ultra-regional perspectives.
