

# European Industry 5.0 Summit

Four Points by Sheraton, Ljubljana  
26th and 27th of November

## Invitation to the European Industry 5.0 Summit

November 26, 2025

Four Points by Sheraton Mons Hotel, Ljubljana, Slovenia

At a time when Europe is undergoing one of the greatest transformations in the history of industry and digitalisation, Ljubljana will host an exceptional event: the **European Industry 5.0 Summit**, organised by the Institute for Industry 5.0 and the Ljubljana Technology Park in cooperation with partner organisations.

The summit will bring together experts from the fields of humanoid robots, virtual worlds, artificial intelligence, European data infrastructure, and Web 4.0 - the fourth generation of the internet. Participants will learn how these technologies enable the transition to Industry 5.0, why it is beneficial for European companies and their employees to start implementing Industry 5.0, and what the concrete steps are for the transition from Industry 4.0 to Industry 5.0.

Participants will learn about:

- the potential of humanoid robots in industry and society,
- examples of Industry 5.0 implementation in companies,
- supporting technologies and data infrastructure that enable the transition from Industry 4.0 to Industry 5.0
- the importance of social innovation in the 5th industrial revolution
- the impact of regulation on the innovation potential and operations of European companies

The full program of the event is available [HERE](#). For further information, please contact Leja Škrubej, E: [lea@i5-institute.com](mailto:lea@i5-institute.com) M: 031 877 485.

Best regards,
